

Environmental and Energy Policy

The Environmental Policy of AARTEE Bright Bar is applicable to all the divisions within the group of companies including all products & services in connection with their operations.

The Environment and Eco systems are important to us and as such we encourage and promote a proactive approach to minimising the impact that our operations may have upon them.

Our Environmental Policy sets out a framework of how we will provide adequate resource and endeavour to continually improve our operations and management systems to prevent pollution upon the environment so far as is reasonably practicable. This is a commitment to at least comply with applicable legal requirements and with other requirements to which the organisation subscribes that relate to the protection of the environment.

The Management of AARTEE Bright Bar will, as far as is reasonably practicable.

- Establish and implement systems and facilities to enable the business to adhere to its environmental management system.
- To reduce any identified external & internal issues and satisfy the needs of all interested parties.
- Influence our authority & ability to exercise control.
- Take steps to prevent pollution to air, land or water.
- Manage aspects arising from our work activities.
- Lead by example in promoting environmental sustainability.
- Engage and consult with employees on matters relating to the environment.
- Ensure that employees have received appropriate environmental information, instruction and training.
- Provide a framework to set realistic objectives and targets which will be periodically reviewed.
- Maintain company environmental policies, procedures and documents.
- Periodically review the management system to ensure that it remains relevant and appropriate to the organisation.
- Make the Environmental Policy Statement available to all interested parties.

AARTEE Bright Bar employees will take responsibility for environmental requirements within their areas by:

- Segregating recyclable materials at source.
- Monitoring and managing energy & fuel usage.
- Adhering to Environmental Permit requirements
- Reporting any concerns that may have an impact upon the environment to the management team.
- Adhering to the Environmental Management System

David Staddon

Managing Director

A handwritten signature in black ink, appearing to read "David Staddon", is positioned to the right of the printed name and title.
